

Please replace the paragraph beginning at page 44, line 9, with the following rewritten paragraph:

Next, the time calculation unit 32 obtains the remaining recordable time using the total time of the disk and the sum of the running time of each stream (a step 1502). This process is identical to those shown as steps S1001-S507 in the flowchart (Fig. 10) relating to the second embodiment.

Please replace the paragraph beginning at page 44, line 19, with the following rewritten paragraph:

The display control unit 23, in turn, displays the screen on the display, whose specific process is identical to that of the display control unit 23 in the second embodiment (i.e. steps S1004 and S1005 in Fig. 10).
